In creating an audit checklist in Excel, having a comprehensive overview is essential. The following steps outline how to make such a checklist using Excel's Developer tab. **\*\*Step 1: Adding the Developer Tab\*\*** Customize your ribbon by selecting 'Developer' from the 'Customize Ribbon' menu. This will allow you to see the Developer tab after clicking OK. **Step-by-step guide:** Apply Conditional Formatting in an Audit Checklist Run the code by clicking the "Play" button on Visual Basic. Once closed, return to your worksheet where all checkboxes will be linked. Now, let's apply conditional formatting: 1. Select cells B8:G16. 2. Go to the Home tab and choose Conditional Formatting > New Rule. 3. Choose "Use a formula to detect which cells to format." 4. In the Format value where this formula is true box, enter a formula that highlights the marked checklists in light pink. Next, apply formatting: 1. Select cell H8:H16. 2. Go to the Home tab and choose Font Color > White. 3. This will make the cells invisible. To proceed, we'll need more specific questions. This template comes with two approaches: a checklist and rating system. You can opt for the checklist option to confirm whether certain criteria are met or not. Alternatively, you can use the rating option, assigning scores from 1 to 5 to each item on the list. Regardless of your choice, the template will automatically generate the results once you've completed the scoring process. Various audit templates are available, including: \* Audit Checklist Form (Yes/No) - a simple, two-option checklist \* Audit Checklist Form (Pass/Fail) - a pass or fail assessment for each item \* Audit Checklist Form (Rating) - a rating system with scores from 1 to 5 \* Audit Checklist - School Example - a template tailored to a school setting \* Audit Checklist - Total Productive Maintenance Example - a template focused on maintenance and productivity Additionally, we have the QFD Safety Audit Checklist Data Collection Plan, which outlines the necessary steps for collecting data.
